

SW 6090 CDA Conference Display Application

- Displays information for conferences using SW 6000 Conference Management Software
- Scalable to all screen resolutions
- Run in full screen or configurable part of the screen
- Colors, font sizes, lists content configurable

Description

The SW 6090 CDA Conference Display Application (CDA) is an application in SW 6000 Conference Management Software used to present dynamic conference content. The CDA is presented for individuals or large groups of people on screen projectors, computer monitors, or high-definition displays.

The CDA application is used to display relevant conference information, such as:

- Voting results
- Agenda
- Mimic (room layout) information
- Microphone status of the delegates:
 - Speakers list
 - Speech-time information
 - Request list
 - Reply list
- Attendance information
- Messaging before and after the conference

Screen content can be changed manually by a technician or chairman using the CUA Conference User Application or automatically controlled by conference events like starting or stopping a voting session.

Multiple CDA's can be installed on one or more PC. Each CDA in a system can be configured individually. The use of CDA is licensed as part of the SW 6000 Software License. The CDA can be installed at as many PC's as needed, but only the licensed number can run simultaneously.

Features

The SW 6090 has the following standard features:

- Up to 16 CDA's in one system
- Display content automatically generated by the agenda or manually set by the chairman or technician
- Built-in skin editor for customizing appearance of screen content
 - Background color
 - Insertion of image
 - Alignment, position and opacity of image
 - Font types and colors
 - Lists appearances
- Scalability
 - Full screen or custom position of content
 - In full screen, the content scales automatically to all screen resolutions
 - Global font size configurable to display only the most important information.
- Option for fully-customized screens using the integrated .xml editor.

Specifications

System Requirements

| | |
|------------------------------------|---|
| Minimum PC requirements | Intel Core 2 Duo 1.6 GHz 4 GB RAM 5 GB HD T-base 10 network card VGA screen output |
| Supported Operating Systems | Windows Vista Windows 7 (32-bit and 64-bit) Windows 8 (32-bit and 64-bit) Windows Server 2003 SP2 (or later) Windows Server 2008 (32-bit and 64-bit) and R2 |
| SW 6000 | SW 6000 Basic v x.x SW 6008 CUA SW 6090 CDA Modules to enable additional features |

How To Order

SW 6000 Basic

SW 6000 Conference Management Software v6.0. (Includes SQL 2008 Express SW 6000 Database, SW 6000 Backup Utility, SW 6000 CUI Application (CU Interface), SW 6005 CAA Conference Administrator Application (one license)) **SW 6000 6.0**

SW 6000 Applications

| | |
|----------------------------|----------------|
| CAA-Conference Admin App | SW 6005 |
| CUA-Conference User App | SW 6008 |
| CDA-Conference Display App | SW 6090 |
| ECA - External Control App | SW 6232 |

SW 6000 Modules

| | |
|--|-------------------|
| Software Module: Microphone control | SW 6010 |
| Software Module: Agenda handling | SW 6012 |
| Software Module: Messaging | SW 6015 |
| Software Module: Mimic/synoptic | SW 6018 |
| Software Module: Table for creating delegate names/info | SW 6020 |
| Software Module: Interpretation control | SW 6032 |
| Software Module: Multi-language screens | SW 6050 |
| Software Module: Voting; control | SW 6060 |
| Software Module: Voting; client | SW 6062 |
| Software Module: Chip card registration | SW 6070 |
| Software Module: Chip card programming | SW 6071 |
| Software Module: Multiple room control | SW 6080 |
| Software Module: Streaming Application Control | SW 6085 |
| Software Module: Web Service Interface | SW 6086 |
| Module: AMC Advanced Mic Control | SW 6110 |
| Module: AMC Advanced Mic Control; max. 50 conference units | SW 6110 50 |
| AAC - Advanced Agenda Control. Upgrade to v5.8 from v5.3 | SW 6112 |
| Module: AAC Advanced Agenda Control; max. 50 conference units | SW 6112 50 |
| Module: ASTM Advanced Speech Time Module | SW 6125 |
| Module: ASTM Advanced Speech Time Module; max. 50 conference units | SW 6125 50 |
| Module: Advanced Import/Export of meetings | SW 6186 |
| Module: Advanced Import/Export of meetings; max. 50 conference units | SW 6186 50 |
